```python
import cv2
cap=cv2.VideoCapture(0)
cap.set(3,300) #change height
cap.set(4,400) #change width
cap.set(10,100) #change brigtness

while True:
    sucess,frame=cap.read()
    cv2.imshow("vidio",frame)
    if cv2.waitKey(1) & 0xFF==ord("q"):
        break;
```
